Bill Miller
Kitsi Vadheim

1. Discussed the 6 September Scope of Services proposal from HKGi.
 - a. The estimated total cost is \$28,000. Decision was made to reduce this to \$20,000. Committee members, rather than the consultant, will be responsible for community engagement to identify the preferred plan for the school site.
 - b. HKGi's expertise would be most useful in preparing the final plan as described in Task 4 of the Scope of Services document.
2. Committee will see a revised proposal in about a week.
3. Committee will begin community engagement, planning for one or more public meetings in 2025 to present ideas and listen for further ideas.
4. Next meeting: October 2024
